1. The following documents are referred to in this communication:

D1 : US 5 703 783 A  
D2 : US 2003/004893 A1  
D3 : US 2002/143880 A1

2. INDEPENDENT CLAIMS 1 and 7

- 2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses: a method for forwarding a piece of mail which first determines whether a destination address is expired (i.e. the mailpiece is incorrectly addressed), and if so, it is determined whether the recipient maintains a forwarding service (i.e. the recipient has filed his forwarding address information). If this is also the case, the mailpiece is then forwarded [cf. D1; col. 2, lines 24-65].

- 2.2 D2 and D3 are also considered to anticipate the subject-matter of independent claim 1. The respective passages can be found in the International Search Report.

- 2.3 Independent claim 7 refers to a corresponding system and thus the same objections as raised against claim 1 apply accordingly.

- 3 DEPENDENT CLAIMS 2-6 and 8-12:

Dependent claims 2-6 and 8-12 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step (Article 33(2) and (3) PCT).
